SOME MISSING AND INJURED

Accident Happens on an Island in
Rainy Lake, Where Construction of
a Three-Mile Bridge Is Under Way.
Concussion From the Blast Causes
Explosions of Sixtythree Other
Charges.

Fort Francis, Ont., Feb. 10.—Thirteen men are dead and five seriously injured as the result of a premature explosion of a charge of dynamite at the construction works of the Johnson-Cary camps on an island on Rainy lake, eight miles east of here, where the St. Paul firm of contractors is constructing a three-mile bridge across the north arm of Rainy lake, making heavy rock fills on the islands between the bridge spans.

Twelve men were killed outright and six seriously injured. One of the injured has since died. There are still some of the men unaccounted for, so that the death list may be still further augmented before the search now being prosecuted is finished.

The cause of the explosion was the premature discharge of one of the holes charged with dynamite. The gang of men, under Foreman Thomas Casey of Lebanon, Pa., had sunk sixty-four holes, at a uniform depth of fifty-two feet and one of the charges in the holes, it is said, was not properly placed and it was while this charge was being taken out that it was set off, the concussion immediately causing the other sixty-three charges to explode. The men were hurled into the air along with tons of flying rock and debris.

Foreman Blown Into Air 150 Feet.

So great was the explosion that large pieces of rock, the size of a small house, were upheaved, while the foreman, who had been standing over one of the holes, was blown into the air 150 feet, the body landing over near the Canadian Northern main line, with both legs blown off and the body frightfully disfigured.

The other laborers were bruised and in some cases almost every bone in their bodies was broken. A gang of shovel men was working in a lower level, taking out the loose rock and loading dump cars, not fifty feet distant, when the explosion occurred, and, strange to say, were not injured in the least, although they were severely frightened by the falling rock. It is said that the amount of dynamite in the explosion was more than 200 bolts, or about five tons.

The company, as soon as the accident occurred, at once telephoned to this place and International Falls for all the doctors available and three responded, Dr. Johnston of Fort Francis and two from International Falls. The men, with the exception of Foreman Thomas Casey, were all foreigners, Austrians and Bulgarians. The names of the men killed and injured have not yet been ascertained.

FALLS FROM DIZZY HEIGHT

New York Workman Drops Twenty-three Stories.

New York, Feb. 10.—Crowded Nassau street was startled when a human form came hurtling through the air and struck the sidewalk in the midst of hurrying pedestrians.

It was the body of a window cleaner, who missed his footing on a window ledge of a towering office building and fell twenty-three stories to instant death. The body narrowly missed a group of young women who were passing.

The victim of the spectacular fall, John Roshin, had unhooked his life belt to step around a pillar, according to a fellow workman.

TWO GIRLS ARE CREMATED

Had Been Playing With Matches in Their Home.

Baudette, Minn., Feb. 10.—According to news received here the home of B. A. Arneson at Rocky Point, on the Lake of the Woods, was destroyed by fire and two of his young daughters were cremated.

The two girls were playing on the upper floor, while Mrs. Arneson and another child were on the lower. When the mother went to open the stair door the flames rushed down and burned her severely. The children upstairs had been playing with matches.

WIFE AS PEACEMAKER SHOT

Woman Dying as Result of Trying to Protect Husband.

Duluth, Feb. 10.—Mrs. Bertha Delich, wife of John Delich, a boarding house keeper at Hibbing, is dying from a bullet that she received while enacting the role of peacemaker. Mr. Delich and J. Kostich, one of her boarders, quarreled over an account and both drew revolvers. The woman rushed between the two men just as a shot was fired. The bullet struck the woman and she fell fatally wounded. Each man asserts that the other fired the shot. Both turned their attention to caring for the woman, after she was wounded, and both are under arrest.

BRYAN WILL BE
FIRST WITNESSHouse Committee to Hear Him
in Money Trust Probe.

INSISTS NEBRASKAN EXPLAIN

Chairman Pujo of Banking and Currency Committee Says That Body Is a Unit in Believing That Bryan Should Say What He Meant in Alleged Insinuation That Committee Is Controlled by Money Trust.

Washington, Feb. 10.—William J. Bryan will be the first witness to be summoned before the house committee on banking and currency to testify in the money trust investigation, which the Democratic caucus, repudiating Mr. Bryan's demand for a special committee, referred to standing committees of the house.

Mr. Bryan trod on the toes of the Democratic members of the committee when he recently declared that the money trust thought it could control the committee. The committee insists that Mr. Bryan must explain what he meant, notwithstanding the fact that the Bryan adherents in the caucus on Wednesday night offered a resolution, which was adopted, expressing confidence in the integrity of their colleagues on that committee.

"The committee is a unit," Representative Pujo, chairman of the banking and currency committee, said, "in the decision that Mr. Bryan must explain to us exactly what he meant."

This is what Mr. Bryan is credited with saying about the committee, concerning which the Democratic members wish to question him:

"Democrats, beware! The money trust, having failed in its efforts to prevent an investigation, is now trying to force an investigation by the banking committee. The fact that the money trust wants that committee intrusted with the investigation is proof positive that it thinks it can control that committee."

Pujo Introduces Resolution.

In marked contrast to the proposals made by Representative Henry of Texas, chairman of the rules committee, for an investigation of the money trust was a resolution introduced by Representative Pujo, eliminating all specific reference to the money trust. The Pujo resolution was approved by the majority members of the committee, to which the Democratic caucus referred most of the inquiry. Representative Freeland, ranking Republican member of the committee, first ineffectually attempted to have the Republican members invited into the committee meeting.

The Pujo banking and currency committee resolution was referred to the rules committee. It sets forth that the "committee is desirous of securing full and complete information regarding the banking and currency conditions of the country, for the purpose of determining what legislation is needed," and authorizes it to sit as a whole or by subcommittee during the sessions or recess of congress and to compel the attendance of witnesses.

There are no references in the resolution to control of money by financial groups and their domination of railroads, industrial corporations, national banks and the New York stock exchange and clearing house, such as were contained in the Henry resolution, refused by the caucus.

"This resolution has been introduced by me upon my own responsibility, and reflects only my personal views," Representative Pujo said after the conference of Democrats.

GAYNOR BOOM IS LAUNCHED

Charles F. Murphy to Be Factor in Baltimore Convention.

New York, Feb. 10.—With the presidential boom of Mayor William J. Gaynor definitely launched the way was cleared for Tammany Leader Charles F. Murphy to become a potent factor in the Baltimore convention.

Murphy, as state leader, will head the "Big Four" and will cast New York's vote on the first ballot for Gaynor.

Then the trading will be ready to commence and the Tammany leaders here are insisting that the nominee will not be any of the men now so prominently mentioned, but a real "dark horse."

WILL NOT DESERT CAUSE

Roosevelt Quoted as Standing by the Progressives.

New York, Feb. 10.—"I don't believe that even my bitterest enemies will say that I was ever a deserter," Colonel Roosevelt told A. P. Moore, publisher of the Pittsburgh Leader, according to an interview given out by Mr. Moore.

"You can say to the progressives," Mr. Roosevelt is quoted by Mr. Moore as saying, "that I will not desert the cause and that they will find me fighting side by side with them to the finish."

Reported Mrs. W. B. Leeds Will Wed Titled Briton.

London, Feb. 10.—Mrs. W. B. Leeds, the wealthy American and a favorite in London society, is reported to be engaged to Lord Falconer, son of the Earl of Kintore. He is at present a guest aboard Mrs. Leeds' yacht, the Semiramis, which is now cruising in the Far East with a gay party abroad, including the Duke and Duchess of Westminster. The Earl of Kintore was reported, in Paris, to have offered odds of two to one that his son would capture the American visitor before the end of the cruise.

LA FOLLETTE MEN
CHARGE TREACHERYOpenly Accuse Colonel Roosevelt
of Breaking Faith.

Milwaukee, Feb. 10.—Senator La Follette's warmest champions in this state are openly accusing Theodore Roosevelt of treachery to the Wisconsin man.

They charge that Mr. Roosevelt gave the positive assurance to Mr. La Follette he would not be a candidate for the presidency in 1912. They charge that during the dark hours of the progressive movement, when even the most hopeful could see no chance for defeating the renomination of President Taft, Mr. Roosevelt drove from him all who would suggest that he become a candidate, but that after Mr. La Follette had taken the leadership of the forlorn hope, had converted it into a potential political force and had reached the point where he believed he could see victory Mr. Roosevelt stepped in to try to grab the fruits of victory.

The Milwaukee Journal, Mr. La Follette's staunchest supporter in the West, after enumerating the incidents which led it to the conclusion the Wisconsin senator had been the victim of double dealing on the part of Mr. Roosevelt, says editorially that the renomination of President Taft might be fraught with less evil than the nomination of Roosevelt.

LORIMER HEARINGS CLOSE

Inquiry One of the Most Exhaustive Ever Made.

Washington, Feb. 10.—Public hearings in the second senatorial investigation into the election of Senator Lorimer were declared closed by Chairman Dillingham of the senate committee. Attorney Haney, representing Senator Lorimer, was given permission to file a brief that the senator's election had been adjudicated before the present investigation began and therefore it could not be the subject of a second investigation.

The inquiry has proved to be one of the most exhaustive ever made by a congressional committee. In the eight months' hearing about 10,000 pages of printed testimony were taken, constituting about 5,000,000 words. It is estimated that the stenographers' fees alone reached \$15,000.

CLAIMS PRICES WERE FIXED

Government Presents Fifty Telegrams at Packers' Trial.

Chicago, Feb. 10.—Fifty telegrams sent by Swift & Co. to their representatives in Eastern cities giving instruction in regard to shipments and margins, and which the government declares tend to show that prices were fixed at the Chicago offices, were read to the jury in the packers' trial.

Many of the messages, although sent over the company's private wires, were in code and had to be deciphered by Lee M. Lester, assistant manager of the beef department, who was on the stand.

All of the telegrams bore the typewritten signature of Charles H. Swift, vice president of Swift & Co., one of the defendants.

TOO MUCH IN THE LIMELIGHT

Washington Not Favored as Home For Nominee—How White House Dinners Influence Legislation—When Members of Congress Burst Into Song. Nick Longworth Writes Rat Poetry.

By ARTHUR W. DUNN.

Washington, Feb. 10.—[Special.]—Men in congress are too much in the limelight to get presidential nominations. For that reason it is the guess of a number of political prophets that some man away from Washington will secure the presidential nomination by the Democrats.

Just go back a number of years. Cleveland as governor of New York beat Hendricks and Thurman. Bryan was away from Washington every time he was nominated. Parker was not even familiar in Washington.

On the Republican side Hayes beat Blaine in 1876. Garfield was an exception. Blaine had retired from congressional life when nominated in 1884. Harrison had been here, but was in private life when nominated in 1888. McKinley had been five years away from Washington when nominated in 1896, beating Reid, Allison, Quay, Davis and every other congressional aspirant.

Of course Taft was another exception, but he was not in congress. Besides, he was associated with Roosevelt, and the latter makes everything and everybody exceptions to all rules.

White House Dinners; Heart Burns. Say what you please, the White House dinners are the highest social functions in Washington, and those wives of senators who are not invited during the season have serious heart burns. They may say they do not care anything about it, but they do, and they wonder why one senator and his wife are asked while they are left.

It sometimes makes a difference in legislation, too, for often an administration measure is opposed by a senator whose wife thinks she has been snubbed by lack of an invitation to a White House dinner.

Congressional Singers. One of the features of congressional life during sessions of congress is the Sunday night gatherings at the various hotels. Sacred concerts are given in many places. In others the members with their families and friends hold informal song services and chant the hymns that remind them of home.

Representative Legare of South Carolina and Representative Padgett of Tennessee live at the same hotel and are always in the tenor row in the choir unless, as sometimes happens, Mr. Legare leads the singing. It was one night when he was wielding the baton that he apologized for appearing in place of Mr. Padgett.

"The gentleman from Tennessee should have been in this place tonight," said Mr. Legare. "He was asked to do so, and as he looks like a preacher, talks like a preacher and acts like a preacher he could have officiated much better than I. But he said he wanted to sit with his wife tonight, who has just joined him for the winter. And we will now sing 'Praise God, From Whom All Blessings Flow.'"

"Rats!" What Doggerel. Representative Kahn of California was arguing the other day in favor of exterminating rats that might be infected by bubonic plague. Mr. Fitzgerald claimed that the rats became infected from the bite of a peculiar flea and that the fleas should be killed before they bit the rats. Mr. Mann favored the appropriation, holding that the rats might reach shipments of food destined for other parts of the country and the plague be spread in that way. The discussion drifted along into the probable cost of exterminating each rat.

It gave Nick Longworth a chance to exercise his gift for writing lyrics, and this gem occurred to him:

"This is the bill of Mr. Kahn, who has the help of Mr. Mann to get the money of Uncle Sam to kill the flea that had the plague and bit the rat that gnawed the food that went by freight to men who ate the food that fed the rat that fed the flea that had the plague, so feared by Kahn and Mr. Mann."

Created a Vacuum. Senator Heyburn began a speech on the arbitration treaties the other day, and there was an exodus from the senate until only two or three Republicans. "I am going to talk," asserted Heyburn, "even if that which is abhorrent to nature, a vacuum, is created." And he did.

Smiths by Their First Names. The many Smiths in the senate are rarely designated by the names of their states. They are from Georgia, Maryland, Michigan and South Carolina. But they are known as Hoke Smith, John Walter Smith, William Alden Smith and Ellison DuRant Smith. When Arizona is admitted there will be another, but he will not be Marcus Annelius Smith, but will be known by the old familiar Mark Smith.

Would Never Do. Husband—if you're not going to use that gown why not give it to the cook? Wife—Oh, no! It's out of style.

HOUSE CUTS CAVALRY FORCE

Reduces Number of Regiments From Fifteen to Ten.

Washington, Feb. 10.—A reduction of the cavalry force of the United States army from fifteen to ten regiments, with a consequent reduction of the enlisted force of the army by 3,580 men, was voted in the army appropriation bill in the house after a bitter fight.

The cavalry reduction amendment was presented by Chairman Hay of the military affairs committee, who was in charge of the \$88,000,000 appropriation bill; but it did not bear the endorsement of the committee. It was vigorously opposed by the Republican side of the house and probably it will be the cause of another fight when the bill is put upon its final passage.

Mr. Hay declared the United States army is top heavy with cavalry.

BUSINESS MEN ARE
AFRAID TO SPEAK UPWoodrow Wilson Says Privilege
Is in Complete Control.

Frankfort, Ky., Feb. 10.—Woodrow Wilson expounded his views of Democracy to the Kentucky legislature, giving what he termed "a straight Democratic talk."

He also spoke at a banquet given by the Woodrow Wilson league of Kentucky at a local hotel.

Early in his speech before the legislature Mr. Wilson brought out his idea of "a system of trusteeship," which, he said, grew out of the power wielded by the big interests in the political world by "men who could see farther than across the directors' table."

"At times it is necessary in furthering these interests to promote artificial prosperity or its reverse," he said.

"We should not be afraid of threats of the reverse, but combat them with facts gained only by as sensitive a knowledge of business as these men have themselves."

"Privilege—this ghost—has captured business in this country. Business men are afraid to talk and this tremor clutching business is proof of the grip of privilege and fear of it."

"Our laws of twenty years ago don't fit conditions as they are today. We stand in the presence of a new order of things. Formerly the people were against a change, but now they know it is necessary."

ASKS AID IN RUNNING COURT

Police Judge Wants Wealthy People to Care for Prisoners.

Cincinnati, Feb. 10.—Police Court Judge Arthur Pricke has issued a unique challenge to preachers, business men and women of Cincinnati to prove in a practical way how much they care to assist in helping unfortunate men and women who come before the bar of his court.

Judge Gricke called for 100 representatives of each class he named, each to be responsible for one man or woman to be taken from police court. The 300 wards of the court are to be supervised personally for a year, to be supplied with clean clothing, a place to live and given positions which will enable them to support themselves in a self-respectable manner.

Wilson to Keep Out of Ohio.

Ashtabula, O., Feb. 10.—"It would be a breach of professional courtesy for me to enter Governor Harmon's own state, when he, like myself, is a candidate for the Democratic presidential nomination," said Governor Woodrow Wilson of New Jersey in declining an invitation to address the Ohio Presbyterian convention.

PROGRESSIVES WILL
OPPOSE OHIO MAN

Resent Herrick's Remarks Regarding La Follette.

Washington, Feb. 10.—President Taft is going to have trouble with the senate over the confirmation of Myron T. Herrick's nomination as ambassador to France. The progressives are going to oppose Herrick's confirmation. They are boiling angry over a reference made by Herrick a day or two ago to Senator La Follette.

President Taft's own friends acknowledge that the remarks attributed to Herrick were ill timed and in poor taste.

Mr. Herrick had just accepted the ambassadorship to France and had come almost directly from the White House when he made his public utterance in regard to the Wisconsin senator. The objectionable reference is supposed to have been made by Mr. Herrick in a speech delivered last Tuesday at Cleveland.

In the course of the speech the following was attributed to Mr. Herrick: "All men in politics have their place. I believe the man who rants about the country, shoves up his hair, crouches on the stage, and then breaks down, has his place."

Mr. Herrick did not mention Senator La Follette by name, but his reference to the Wisconsin presidential aspirant, who suffered a breakdown at Philadelphia, was unmistakable.

Washington Officials Regard Situation as Alarming.

DISORDER INCREASING DAILY

Respect for Law, Order and Authority Has Disappeared and the Loyalty of the Army to President Madero Is Gravely Doubtful—Value of American Interests in Republic Is Figured in Hundreds of Millions.

Washington, Feb. 10.—Members of the administration do not hesitate to state that the Mexican situation is regarded here as most alarming. High officials see in the condition of the Mexican republic a menace, which, they believe, may develop into a crisis for the American people as well as the Mexicans.

The disorder in Mexico is increasing daily. Respect for law, order and constituted authority has disappeared, according to the reports received here. The loyalty of the army, upon which President Madero should be able to place absolute dependence in suppressing bands of marauders, is gravely doubted. The soldiers, if they have not expressed open opposition to President Madero's regime, are half hearted in their support of him. It is believed here that unless the spirit of the army changes soon Madero will be attempting to compete with anarchy for the control of Mexico.

There are no less than 45,000 Americans in Mexico, according to the latest figures. The majority of these are either associated with, or actually directing, large scale operations in mining, agriculture, or commerce. The value of the interests of American citizens is figured in the hundreds of millions. Bound with these enterprises in Mexico are the fortunes and lives of the 45,000 Americans and involving the interests of thousands more in this country.

Might Endanger Americans.

These are the facts which the members of the administration have in mind when they sit down to wrestle with the question. The difficulty of the problem—what really causes the anxiety—is the fear that any step the United States might take to help the situation might endanger these Americans and their interests vastly more than if the government limited itself merely to precautionary measures along the Mexican border.

In other words, it is feared that even the mention of the word "intervention" would precipitate serious trouble. Reports received in the last few days from all parts of Mexico say that the published statements in Mexican papers in the form of dispatches from the United States, that this government is contemplating intervention, is doing much to foment a spirit of great resentment against the American, for whom the Mexican has not, at best, any love.

The army has taken every step preliminary to a movement of the military, if not into Mexico, at least toward it. Yet not a man has been actually moved. Only enough soldiers have been placed near the boundary to protect the border cities and towns and enforce the neutrality laws. Yet the same military authorities who admit that the situation is most serious declare that it is nothing as compared to the gravity of any consideration of intervention by the United States.

UPHOLDS CREDIT TAX LAW

Minnesota Supreme Court Decides Act Is Not Double Taxation.

St. Paul, Feb. 10.—Minnesota's new law for assessing moneys and credits is upheld by the state supreme court in a decision presented in the case of the Winona Motor company against the state tax commission. The company appealed to the court from the order of the tax commission denying its application to have the company's debts and other liabilities deducted from the assessment for moneys and credits and contend that the law is unconstitutional as it imposes double taxation. The court holds the law constitutional and sustains the tax commission in refusing to permit debts to be figured as an offset in determining the assessed value of credits.

PEACE HANGS IN BALANCE

Viscount Haldane's Mission to Berlin Regarded as Momentous.

London, Feb. 10.—Whether the overtures for the visit to Berlin of the British secretary of war, Viscount Haldane, originated in England or in Germany is a disputed point, but it is impossible longer to disguise the momentous character of the mission. There are not wanting those who believe that the issue of war or peace depends upon its success or failure.

The visit of Viscount Haldane is associated in the public mind with the speech of David Lloyd-George, chancellor of the exchequer, at the city of London Liberal club Feb. 3, in which the chancellor declared the moment auspicious for a discussion of a reduction in armaments, which was considered as an effort looking to the conciliation of Germany.

At the present moment, however, it is impossible to define the objects of the mission of Viscount Haldane.

MUSIC AND DRAMA
"Princess Zelda"
Lovers of the mysterious are to be
given a treat next week at the opera
house by the appearance of Princess
Zelda, the white Mathma, whose in-
sight in to the unknown has placed
her on a plane unattainable by any
other person.
Aided by mesmerism she will re-
veal lost or stolen valuables, restore
to you missing friends or relatives,
in fact out line your path of life
from cradle to grave.
"The Balkan Princess"
In "The Balkan Princess," which
the Messrs. Shubert will present at
the Brainerd opera house, Feb. 21,
Louise Gunning and her excellent
supporting company will be seen in
a musical comedy which won recog-
nition in London where it ran for a
year, as well as in New York where
it met with the same instantaneous
success. The authors and composers
have provided a story alluring in its
romance and a score which for tune-
fulness easily ranks with "The Mer-
ry Widow" and "The Chocolate Sol-
dier." An interesting feature of "The
Balkan Princess" is the absence of
buffoonery and rough comedy which
have brought musical comedy into
disfavor in recent years. Yet the
comedy element is not in any sense
lacking, as there are many humorous
situations, bright lines, and the Bo-
hemian Cafe scene is particularly
brilliant and marked by the lighter
vein.
The story is laid in the mythical
country of Balaría and has, to do
with the plight of a Princess who
must marry or lose a throne. She
leaves the Royal Palace, incognito,
and something of the world and in-
cidentally, through a sense of pique,
to discover a certain "insurgent" Grand
Duke who has scorned to appear as
a suitor for her hand. Her experi-
ences in a Bohemian cafe where she
meets the Duke surrounded by his
boon companions are well suited to
produce the climax which follows
when the Princess discloses her iden-
tity and orders the arrest of the Duke
on a charge of "lese-majeste." The
recalcitrant Duke, who is really in
love with the Princess, is incarcer-
ated in the palace. Subsequently the
Princess relents, decides that she will
sign away away her royal rights,
when the Duke appears, and discov-
ering that they love each other, they
decide to rule together.
The musical numbers include "Half
Holidays," "Stealing," "I Like You
All," "Love and Laughter," "Dear
Delightful Women," "Don't Let's
Meet Again," "The Opera Ball,"
"Dreaming" and "Wonderful
World."
The scenic setting of "The Balk-
an Princess" is unusually striking,
while the costumes and other fea-
tures of the production are marked
by a splendor in keeping with the at-
mosphere of the piece.
The cast in support of Miss Gun-
ning includes: Arthur Stanford,
Geraldine Malone, Harry Llewellyn,
Mark Smith, Pedro Cordova, Harry
P. Gribbon, Teddy Webb, Charles
Knapp and Frederick Macklyn.

**FOUND THE WORLD IN
AN AUTO TO PREACH.**
Richard Tjader Will Go on Unique
Mission Covering Fourteen Months.

Richard Tjader of New York, big
game hunter, who has made two ex-
peditions into the wilds of Africa, is
to make a tour of the world which is
to last fourteen months.
Mr. Tjader is not going abroad this
time to hunt, but to preach. He was
educated for the ministry, and until
eight years ago he followed that call-
ing.
Tjader is a brother-in-law of Oak-
leigh Thorne, president of the Trust
Company of America. He is well
known in society. His marriage to
Miss Margaret Thorne took place in
1909. Mr. and Mrs. Tjader made a
honeymoon trip around the world and
spent several months in the remote
mountain districts of India. On their
return they organized a missionary
movement and raised funds for mis-
sionary workers. In 1907 he went into
Africa and came back with 500 animal
skins for the Museum of Natural His-
tory in New York and a live rhinoc-
eros for the Bronx zoo. In 1909 he
made a second trip and there met Col-
onel Roosevelt, with whom he since has
been on terms of intimacy.
Mr. Tjader, who is a Swede, came to
this country about twenty years ago
and joined Dwight Moody in his evan-
gelical tours. While a preacher he met
Mr. Thorne, who took a deep interest
in the religious work Mr. Tjader was
doing. It was in this way that he met
Miss Thorne.
Mr. Tjader, who is wealthy, is over
six feet in height and weighs 225
pounds. He speaks nine languages.
With a large touring car and an expert
chauffeur he will visit the principal
cities of Europe and Asia, stopping in
each long enough to preach to the fail-
en and the indigent, with the aim of
giving encouragement and making con-
verts to Christianity. He will visit
missionary centers in some of the out
of the way places and study their
needs with a view to rendering assist-
ance.

BADLY SCALDED IN WRECK IN YARDS

Wm. H. Lawrence Almost Killed in
Collision of His Switch En-
gine and Local Freight

SWITCH ENGINE DEMOLISHED

Accident Occurred Near Foundry
Last Night, Lawrence Having
Orders to go to Shops

To be badly scalded by escaping steam when his switch engine, No. 996 and the local freight collided in the yards near the foundry, was the unfortunate accident in which Engineer William H. Lawrence came near losing his life at seven o'clock last night.

Upon finishing his day's work Lawrence received orders at seven o'clock to take his engine to the shops. He ran down the line and when near the curve near the foundry the local freight, running at some speed, struck his engine and fairly demolished it. Lawrence jumped through his cab window and the fireman shot out of the other side.

Lawrence was badly scalded by the escaping steam, his face, arms and hands being severely burned. The fireman was not badly injured. Lawrence was hurriedly taken to the sanitarium where his wounds were dressed. Preferring to be removed to his home, Mr. Lawrence was taken to his residence at 1011 Kingwood street. Later his injuries necessitated his removal back to the hospital where he now is.

The pilot of the big 2300 engine was torn off. Its occupants were not injured. Engineer Lawrence has worked for the company over 25 years and this is the first serious accident he has been in. It is a miracle that he was not crushed to death in the wreckage.

LEAP YEAR BALL

Given by Bachelor Maids Last Night
at Citizens State Bank Hall Was
Great Success

The Bachelor Maids were hostesses at one of the largest and most prominent social functions of the season last night when their Leap Year ball was held at the Citizens State bank hall. It being a leap year party the ladies did themselves proud in every way, as escorts and in having carriages for their gentlemen and also seeing that there were no wall flowers about during the evening.

At 9:30 to the strains of "Who Are You With Tonight?" the Bachelor Maids led by the vice president, Miss Mae Belle Grexow and Dr. W. A. Erickson formed the grand march, about 250 couples falling in line and forming a merry throng.

The hall was most artistic in red and white festoons. From the center chandelier ropes of white paper were strung to the corners and sides of the hall intermingled with red hearts, the center being a large red heart pierced with an arrow. The curtains were also draped with red and white hearts and altogether it was a beautiful sight to behold.

Frappe was served during the evening from a table decorated with red hearts. The merry crowd danced until the wee small hours, when the lady escorts and their gentlemen bade a good night to the Bachelor Maids and thanked them for a most enjoyable evening.

FULLY EXONERATES CO. ATTY. FLEMING

Attorney General Smith Takes Position
That His Own Department
Handled Allen Town Cases

FLEMING IS NOT TO BLAME

The Attorney General Accepts Full
Responsibility for the Hand-
ling of These Cases

The St. Paul Pioneer Press of Feb. 9th on its 16th page has the following article which clearly vindicates County Attorney Fleming in his stand taken in the Allen town cases and fully exonerates him from any charge of negligence in the prosecution of these cases as charged by F. B. Atwood, of Cross Lake:

"In a letter he expects to write today to F. B. Atwood, of Cross Lake, Crow Wing county, the chief complainant against County Attorney Fleming of that county, Attorney General Lydon A. Smith will take the position his department has had charge of the particular cases involved in Atwood's petition for Fleming's removal, since the indictments were first obtained, and will take the responsibility for the manner in which they were handled.

"The attorney general also will say the charges form no basis for Fleming's removal inasmuch as he placed no stumbling block in the department's way in handling the cases and has handled them as advised by department. This conclusion the attorney general announced to Fleming yesterday.

"Fleming was charged by Atwood and the other signers of the petition asking the governor to remove him, with not having pushed the prosecution of seven township road supervisors of Allen township, indicted for hiring themselves to do the work they were supervising."

RAILWAY MEN AND FORESTERS MEET

Over 50 Representatives are Present
to Discuss Fire Prevention and
Kindred Topics

AS APPLYING TO RAILWAYS

Prominent Officials of 10 Railways
Meet Foresters, Chief Forester
Cox Presiding

Representatives of the Northern Pacific, Soo line, Great Northern, Canadian Northern, Duluth & Iron Range, Duluth, Missabe & Northern Duluth & Northeastern, Canadian Northern, Minnesota & International and Cuyuna Northern railways, the Weyerhaeuser Lumber Co., of St. Paul; Cloquet Lumber Co., and Northern Lumber Co., of Cloquet, Chief Forester W. T. Cox and assistants met this morning at the Commercial club rooms and discussed fire prevention as it applied to railways.

Among the topics brought up were: how employees may be brought to realize the vital necessity of preventing fires; improving conditions of the rights-of-way by cleaning up and disposing of the debris and by making fire lines; the patrolling of rights-of-way; spark arresters, their use and other improvements in the equipment of locomotives to prevent the throwing of sparks and dropping of live coals from the ash pan; the consideration of the methods by which an organized and efficient force can handle the railroad companies fire prevention work.

The convention opened with a short address of welcome delivered by Carl Zapffe, the president of the Commercial club who stated he was glad to have the representatives of the railways and the state forester and his assistants select Brainerd as their meeting place and that he hoped their deliberations would result in much good and that the discussions to be held would be of lasting benefit.

Systematic fire prevention means considerable to the railroads. It means a direct reduction in the loss of the company's property; the practical elimination of claims for damages resulting from fires set along the tracks and the cost of litigation; the preservation of a vast amount of traffic in forest products in the future as well as at present; encouragement to settlers, because of the greater safety from fires.

In view of the fact that the losses to the railroad companies, both direct and indirect, are so great, it would seem sound business policy for them to spend, as insurance against further losses, a reasonable amount for an effective organization to handle the problem.

The following is not a complete list of the delegates in attendance at the meeting but the publication of as many names as have been obtained shows the interest which was taken in the meeting by the various railroads who were represented by these men: Thomas Owens, of Two Harbors, superintendent of the Duluth & Iron Range railroad; A. E. Warren, of Winnipeg, general superintendent of the Canadian Northern; D. H. Williams, of Superior, trainmaster of the Soo; A. J. Sovereign, of Staples, superintendent of the N. P.; Gerhart W. Wingard, of St. Paul, auditor of the Weyerhaeuser Lumber Co.; H. G. Stevens, general freight agent and John Dunlavy superintendent of the Duluth & Northeastern; H. L. Dresser, of Duluth, chief engineer of the Duluth, Missabe & Northern; E. W. Osborne, of St. Paul, insurance inspector of the N. P. railway; F. C. Gerhard, of Minneapolis, general manager of the M. & R. R. Ry.; W. C. Lacroix, of Deer River, superintendent of the M. & R. R. Ry.; G. H. Durbrow, of Duluth, district claim agent of the N. P.; J. W. Smith, of Crookston, master mechanic of the Great Northern; E. C. Blanchard, of Duluth, general superintendent of the N. P.; Silas Wright, of St. Paul, general master mechanic of the N. P.; Division Engineer L. Yaeger, of St. Paul, of the N. P.; J. Horan, road foreman, N. P.; A. E. Macdonald, of

Winnipeg, general claim agent Canadian Northern Ry.; J. B. Neish, master mechanic, of Minneapolis, N. P. Ry.; O. C. Wakefield, of St. Paul, N. P.; A. Grimes, roadmaster, Little Falls, N. P.; D. M. Philbin, of Superior, general superintendent Great Northern; T. J. Tyler, roadmaster of Brainerd, N. P.; Trainmaster L. F. Newton, Duluth, N. P.; J. A. Murphy, of Superior, attorney Great Northern; T. E. Cannon, of Superior, master mechanic Great Northern; H. Mills, of Bemidji, roadmaster M. & I.; J. S. Taylor, of St. Paul, assistant general claim agent of the N. P.; Ellis M. Sloggy, of Brainerd, claim agent N. P.; and others.

W. T. Cox, of St. Paul, and his assistant, Mr. Tierney were present. Mr. Cox presided at the meeting. Among the forest rangers present were J. P. Saunders, of Brainerd; M. J. Thornton, ranger of the sixth district; L. F. Johnson, ranger of the eighth district; A. C. Dupuy, of Park Rapids, and others.

There will be an afternoon session and probably a short session this evening. Many will remain to attend the Princes of the Oriental initiation.

FARMERS IN CONVENTION

Farmers Club Agrees on Early Ohio
As Early Potatoes for
Planting

ABOUT 80 FARMERS PRESENT

F. H. Gruenhagen Presided and Henry
Bouck, of Long Lake, Acted
as Secretary

The Farmers' club had a meeting at the Commercial club rooms this afternoon and 80 were present. F. H. Gruenhagen presided and Henry Bouck acted as secretary.

The farmers discussed the best potatoes to raise for early and late planting and on motion agreed to plant Early Ohio as the variety for early planting.

Great interest was taken in the discussion of matters presented and numerous farmers gave expressions to their view on which varieties to raise. W. D. McKay suggested that the farmers should sign up for pure seed and that some one could be appointed then to send away for the seed. He explained how a man could ship a car load of potatoes, with half the car full of sacked Burbanks and the other half loaded with sacked Carman potatoes.

The farmers occupied the billiard room and the railway and forester convention retired to the parlors. By closing the folding doors each convention managed to get along very well without disturbing the other.

FOR ARTIFICIAL RAIN.

Oklahoma Professor Claims Experiments Are Successful.

Professor Jamieson of the Edmond (Okla.) branch of the state normal school system, announced that he soon will make further experiments in the way of rainmaking as a result of what he says was a successful trial recently.

His recent experiments were made on a foggy morning from a high platform. He released liquid air in the form of a spray.

Result—Rain.

Next time, Jamieson says, he will use an airship for the experiment and rise above ordinary cloud height, where he expects the liquid spray to condense the moisture and cause considerable precipitation.

Why not Stencil Curtains During Winter Days

We have the most practical stencil paint to be had. It does not "run," it will wash and the results are the most satisfactory in every respect.

We will give you instructions and, by the way, the inexperienced can learn this stenciling in a very short time. The outfit including paints, brushes and one piece to begin on, costs you but \$1.50.

Come in some morning soon and permit us to show you the possibilities of this work.

All members of the M. W. A. 54 years of age or over pay the same rate viz: \$3.00 per thousand until death, on the whole life level assessment rate certificate, being the same plan of certificate they hold at present.

On the term insurance to age 50, the rate remains the same from 45 to 50 years of age, but is not extended in the table because you can not take the 50 year term if you are over 45 years of age. The same rule applies to the 60 and 70 year term as you can not take the 60 year term if you have passed your 55th birthday or the 70 year term if you have passed your 65th birthday, but the rate does not increase in the 60 or 70 year term further than carried out in this table.

It will be noticed that the N. F. C. (National Fraternal Congress) table is a trifle higher than the M. W. A. and while the M. W. A. table stops at age 54 the N. F. C. table continues to raise during full life, until for instance, if a member be 80 years of age and is resided in a society working on the N. F. C. table, his rate would be \$15.45 per month unless all other fraternal orders allow the young man to carry a little of the old man's burden as is done in the M. W. A.

The so-called "Mobile Bill," the passing of which in fourteen states has caused this raising of rates, requires that all fraternal insurance associations shall adopt the N. F. C. rates or cease writing insurance and it is expected that the Bill will be passed in every state of the union.

The M. W. A. was exempted from the requirements of this bill in so far that they were allowed to base their own rates on their own table of past experience as they had a continuous membership of over one hundred thousand for the past twenty years, hence their rates are a trifle lower than the standard N. F. C. table.

It will be found on comparison with old line rates that the N. F. C. and M. W. A. rates will make the cost of fraternal insurance about two-thirds the price of old line insurance, and it would be advisable for all concerned to think well before dropping their fraternal insurance, for under the new rates the fraternal will be as strong as any of the old line companies.

There are several other plans or

options of minor importance which any member has the privilege of adopting, all of which will be published in the next issue of the Modern Woodmen monthly. Save your paper and read it carefully.

The rates for old members will not go into effect until Jan. 1st, 1913 while new members must be written on the new rates after May 1st next. Under the new plan the Woodmen will write certificates from one hundred dollars up to three thousand and the old members may cut their insurance to any amount they may see fit to carry or continue paying their old rate of assessment, said rate purchasing a certain amount of insurance as determined by the M. W. A. table of experience.

As delegate from this district I have copies of all the plans and rates and will be pleased to explain them to all inquiring neighbors.

They Didn't Like Games.
Shelley's view of games was approxi-
mately Swift's view—that "games are
the recreations of people who do not

**PNEUMONIA IS
DUE TO A GERM**

Rockefeller Institute Doctors
Prove the Theory.

EXPERIMENTS ON DOGS.

Forty-eight Were Used, and Forty-two
Developed Disease Just Like Pneu-
monia in Human Beings—Cancer Not
Due to a Parasite.

The Rockefeller Institute announces
that it has succeeded at last in pro-
ducing pneumonia experimentally,
thereby proving, so the experts of the
institute say, that pneumonia is caused
by a germ, the pneumococcus. While
that has long been a theory, there has
not been direct proof of it until now.

The institute experiments, made by
Dr. R. V. Lamar and Dr. S. J. Meltzer
of the Rockefeller laboratories, are de-
scribed in the Journal of Experimental
Medicine.

All the experiments were made upon
dogs. The method consisted in inject-
ing pure cultures of the organisms
taken from human patients into the
lungs of the dogs. Forty-eight animals
were used. In forty-two of the ani-
mals pneumonia was produced by the
pneumococcus injections. Ten of the
dogs died, thirty-four were killed with-
in from one to twelve days and four
several weeks after the injection.

Resembled Pneumonia.

"The fatal cases," say the experi-
menters, "resembled closely human
pneumonia in man. In the non-fatal
cases the pathological and bacteriologi-
cal findings were again in accord with
the findings in man. Clinically, how-
ever, the cases of non-fatal experi-
mental pneumonia ran a milder and
shorter course than in man."

The dogs' lungs were clogged just
like pneumonia stricken human lungs.
The symptoms and autopsy findings
were identical with those of human
pneumonia.

Two other Rockefeller Institute ex-
perimenters, Dr. J. B. Murphy and Dr.
Peyton Rous, have been inoculating
unborn chicks with cancer. The work
was done in the Rockefeller labora-
tories. The doctors cut out a piece of
the eggshell, used a hypodermic needle
containing the cancerous fluid and then
sealed up the hole in the shell. The
eggs were those of pure blooded
barred Plymouth Rocks.

Cancer Inoculation.

The doctors report that they succeed-
ed in the direct inoculation of a cancer
of a fowl into the unhatched chick in
the shell and also into unborn pigeons
and ducklings, but they could not
transplant fowl cancer to an adult pig-
eon or duck, and cancer transplanted
from one variety of adult chicken to
another did not flourish.

Dr. Isaac Levin, a Columbia univer-
sity investigator under the provisions
of the George Crocker Special Re-
search fund, reports that he is con-
vinced, after experiments on white
rats, which are remarkably resistant
to cancer, that the disease at the be-
ginning is local, not constitutional or
general, and hence is not due to a
parasite.

Growth of cancer, concludes the
Crocker fund experimenter, is due to
a loss of equilibrium between the re-
pressive power of the soft glandular
cells and the "flowering" power of the
cancer cells.

As to the origin of the cancer cell
itself he announces no conclusion.

ROCKEFELLER FOUNDATION.

New Measure to Meet Objections of the
Gallinger Bill.

A bill for the incorporation of the
Rockefeller foundation has been intro-
duced in the house by Mr. Peters of
Massachusetts. It was referred to the
committee on judiciary. A bill along
the same lines was introduced in the
senate in 1910, but publication of the
terms of the proposed charter aroused
criticism. It was reintroduced in
amended form in June, 1911, and it is
in this form that it has just been in-
troduced in the house.

In the original bill it was stated the
object of the incorporation was "to
promote the well being and to advance
the civilization of the peoples of the
United States and its territories and
possessions and of foreign lands,"
which terms opponents said were too
broad.

The first important amendment states
that congress may at any time impose
such limitations on the objects of the
corporation as the public interest may
demand. Another amendment provides
that the total amount of property shall
be limited to \$100,000,000.

CHURCHES GAIN SLOWLY.

594,000 Increase in 1911, Catholics and
Methodists Getting Four-fifths.

The Catholic church showed the
greatest numerical gain last year, with
230,000 new members, while the Meth-
odist church shows the greatest pro-
portionate gain with 204,000, according
to Dr. H. K. Carroll, formerly director
of the religious census. The total gain
of all churches was 594,000. The in-
crease is less than 1.7 per cent.

"It cannot be considered at all satis-
factory," comments Dr. Carroll. "The
greater part of this country's popula-
tion are not church members."

DYING OF A RARE DISEASE.

The Skin of an Iowa Woman Becomes
Black and Hard.

A disease seldom recorded has at-
tacked Mrs. Abel Hare, forty-five years
old, of Elgin, Ill., and is slowly caus-
ing her death. It is known as Ray-
naud's disease.

It is turning the flesh on her hands
and arms into a black substance, hard,
immovable and without feeling. The
disease has spread from the fingers to
the elbows in a week, and the hands
resemble ebony in appearance. Physi-
cians say it results from contraction
of the coverings of the blood vessels.

**TO GET THEIR REWARD
AFTER NINETEEN YEARS.**

Wreck Heroes Finally Allowed to Ac-
cept Watches From Canada.

After nineteen years Elliot C. Hadley,
lightkeeper of Baker's Island, and Mrs.
Albert C. Whitten of Somerville, Mass.,
widow of A. C. Whitten, are to receive
silver watches presented by the Cana-
dian government in recognition of what
seafaring men designate as one of the
bravest acts ever performed on the
Massachusetts coast.

On Aug. 23, 1893, about 3 o'clock in
the morning, the schooner Lottie B. of
St. John, N. B., Captain McCarour,
went aground on the Londoner, just
south of Thatcher's island. Hadley
and Whitten, the former first assistant
and the latter second assistant, were
on duty attending the lights. Some
hours after the schooner struck the
captain and one of the crew put out in
a dory and rowed to Rockport in search
of a towboat to haul the vessel off.
Shortly after the men left the vessel
the wind hauled around to the south-
east, and it was soon blowing a gale,
the seas rolling over the wreck.

Knowing that there were men on
board, Hadley and Whitten launched
their small dory. After a long strug-
gle these two men reached the schooner
and, taking the crew into their boat,
set out for shore and landed on the is-
land with the greatest difficulty.

The affair was reported to the Cana-
dian government, which within a few
days presented the two assistant keep-
ers with silver watches suitably en-
graved. Then came the hitch. The
keepers were unable to accept these
remembrances under the rules of the
government. The senate has just pass-
ed an act which allows Hadley and
Whitten to receive the gifts, and they
have been sent on with the compli-
ments of the Canadian authorities.

DEMOCRATIC CONVENTION.

Norman E. Mack Sends Out Official
Notices of Party Gathering.

The official call for the Democratic
national convention, to be held at
Baltimore on June 25, has just been
issued by Norman E. Mack, chair-
man, and Urey Woodson, secretary,
of the Democratic national committee.
The representation and the method of
naming of delegates are outlined as
follows:

"Delegates and alternates from each
state of the Union shall be chosen to
the number of two delegates for every
senator and two delegates for every
representative from the states respec-
tively in the congress of the United
States under the congressional reap-
portionment of districts based upon
the census of 1910. The District of
Columbia, Alaska, the Philippines,
Hawaii and Porto Rico are each al-
located six delegates.

"In the choice of delegates and alter-
nates the Democratic state or territo-
rial committee may, if not otherwise
directed by the law of such states
or territories, provide for the direct
election of such delegates or alter-
nates if in the opinion of the commit-
tees it is deemed desirable and pos-
sible to do so with proper and sufficient
safeguards. Where such provision is
not made and where the state laws
do not provide the manner of such
choice then the delegates and alter-
nates to the said national convention
shall be chosen in the manner that
governed the choice of delegates to
the last Democratic national conven-
tion."

The Rialto.

The architect of the famous Rialto
bridge, in Venice, was Antonio da
Ponte. The bridge is a single arch,
ninety feet in length, and is exceed-
ingly strong and graceful. It is crossed
by means of ascending and descending
steps, while on the top are two ranges
of shops, dividing the structure into
three parallel streets.

Man Gets a Bouquet.

One foggy morning recently a Lack-
awanna ferryboat was in collision with
a tug. No great damage was done, but
for a few moments considerable ex-
citement prevailed among the commu-
ters. One woman in particular rushed
for the rail and in her panic seemed
bent on leaping overboard. An athletic
young man restrained her, assuring her
there was no danger. At length she
was sufficiently calmed to speak, and
then, clinging to her preserver's arm,
she gasped: "You know, I'm a splinter
and a suffragette, but there certainly
are times when a man is a mighty
good thing to have around."—New

DOES SURELY BREAK A COLD

How to Cure the Most Severe Cold
and End All Grippe Misery in
Just a Few Hours

There is not one grain of quinine
in Pape's Cold Compound, which,
when taken every two hours, until
three consecutive doses are taken,
will surely end the grippe and break
up the most severe cold, either in
the head, chest, back, stomach or
limbs.

It promptly relieves the most mis-
erable headache, dullness, head and
nose stuffed up, feverishness, sneez-
ing, sore throat, running of the nose,
catarrhal affections, soreness, stiff-
ness and rheumatic twinges.

Pape's Cold Compound is the re-
sult of three years' research at a cost
of more than fifty thousand dollars,
and contains no quinine, which we
have conclusively demonstrated is not
effective in the treatment of colds or
grippe.

Take this harmless Compound as
directed, with the knowledge that
there is no other medicine made any-
where else in the world which will
cure your cold or end Grippe misery
as promptly and without any other
assistance or bad after-effects as a
25-cent package of Pape's Cold Com-
pound, which any druggist in the
world can supply.

Manhattan Borough.

Manhattan, one of the five boroughs
comprising Greater New York and its
most important borough, is approxi-
mately fifteen miles in length, from
the Battery to the city line, and about
five miles at its greatest width. Its
frontage on the water, together with
the shipping facilities of the entire city,
is 44 miles, or equal to the distance
between the city and Buffalo.

RESULTS THAT REMAIN

Are Appreciated by Brainerd People

Thousands who suffer from back-
ache and kidney complaint have
only temporary benefit. This is dis-
couraging, but there is one special
tried on remedy after another, finding
kidney medicine that cures perman-
ently and there is plenty of proof
right here in Brainerd.

Here is the testimony of one who
used Doan's Kidney Pills years ago,
and now states that the cure was
lasting.

Mrs. John L. Nelson, 309 Quince
St., Brainerd, Minn., says: "About
two years ago we used Doan's Kid-
ney Pills and found them so effective
that we publicly endorsed them. They
brought relief from pains in the
back and head and other distressing
symptoms of kidney complaint. The
lapse of time has only served to in-
crease our high opinion of Doan's
Kidney Pills."

**CASCARETS CURE A
BILIOUS HEADACHE**

Gently but Thoroughly Cleanse Your
Liver, Stomach and Bowels and
You Feel Great by Morning

You're bilious, you have a throbb-
ing sensation in your head, a bad
taste in your mouth, your eyes burn,
your skin is yellow, with black rings
under your eyes; your lips are
arched. No wonder you feel ugly,
mean and ill tempered. Your system
is full of bile not properly passed off,
and what you need is a cleaning up
inside. Don't continue being a bilious
nuisance to yourself and those who
love you, and don't resort to harsh
physics that irritate and injure. Re-
member that every disorder of the
stomach, liver and intestines can be
quickly cured by morning with gentle,
thorough Cascarets—they work
while you sleep. A 10-cent box from
our druggist will keep you and the
nirle family feeling good for months.

At Bane's

Some bargains that out of town peo-
ple have told me to sacrifice and sell:

Eighty acres in Sec. 1, St.
Mathias ----- \$ 600.00

Fine house and barn, three
lots, corner Fir and Broad-
way ----- \$1600.00

Forty three acre vegetable and
chicken farm, buildings and fruit
trees.

One hundred and fifty acre lake
shore property, 1/2 mile lake shore,
one mile from station.

Lake shore lots on Cullen, Clear-
water and other beautiful lakes.

Lots in BARROWS will double this
summer. The Barrows mine will be
taking out ore in a few months.

I can sell your house or farm if
the price is reasonable.

List it now—No sale, no cost to
you.

Workhouse Museums.

Several of the great London work-
houses have remarkable museums at-
tached to them. In a south London
union museum can be found a clergy-
man's letters of ordination (the owner
died in the house) and a peculiar belt
made by human teeth and brought from
the west coast of Africa. But perhaps
the most significant of all the things
shown is a small pocket dice box.
Upon the box is neatly cut, "This box
and other wagering cost me £30,000
and brought me to the workhouse."—
